(14)

BLAZER YOUTH COUNCIL

## PURPOSE

Inspire the individual to develop himself to the fullest extent of his ability with the help of the community and its many facilities. And to create the incentive for learning a technical skill through which he can enter the stream of community life.

To inspire young people and adults to aggressively seek opportunities, to enlist the aid of people, organizations, and social agencies that can assist them in developing a greater earning capacity and broader moral outlook on life in this community and other communities to which they may eventually migrate.

To personally assist the individual in developing all of his abilities to the fullest extent and ultimately to teach him a trade which will change his basic economical and financial status, thus enabling him to overcome feelings of frustration, acts of discrimination, and a poor self image.
